

AC Milan Chain Race

GameProgression

1. Two teams start opposite each other. 1 player for each team stands on the outside of the circle/grid and the rest of their teammates on the inside.
2. 1st player completes a lap and then collects their next teammate
3. Players must link up/chain together at all times. If the chain is broken; those players behind the break must return to the inside of the circle
4. The first team to collect all of their players and return back to the middle is the winner
