Chain Gang

1. 2 taggers (depending on numbers — the more numbers the more taggers)
2. Objective is to tag other people — when they do they link (hold hands) to that person (group) to become a chain
3. This chain must now "sweep" up the other players

Other players must find ways to escape the "chain" whilst staying inside the square.

1. Where are they?
2. How do we stop getting caught?
3. How can the Chain improve who to tag?

Change starting tagger

Play last man standing for 2-3 goes…
