Shoplifter

GameProgression

1. Place a mat on the floor or mark out an area with cones. Scatter balls on the mat/in the area. Mark out a larger area so that sides are at least 5m from the mat.
2. **'Security guard'** stands next to the mat. They must prevent 'shoplifters' from stealing balls. They do this by tagging them.
3. **'Shoplifters'** start outside the larger area, must look to run into the ara and steal balls without getting tagged by the security guard. If they are tagged they must hand back any ball they are holding and then return to outside of the area before trying again.

1. Play for a set time period or until all the balls have been stolen
